About Dosto

- Dosto is a free platform designed to bridge the gap between Communication and Secured Communication.
- Dosto is a user-friendly platform available to download from Play Store and App Store which ensures Secure Communication with your Friends, Colleagues and Customers already using Dosto.
- The data remains 100% secure by giving you a complete control of your app and data. You can easily pass on important information using the Dosto messaging app without worrying about the data security breach.
- It also features End-to-End Encryption, so you can be sure that your messages are Private and Secure.

- In addition to standard one-on-one and group chats, you can also do voice or video calls free of charge, even internationally.
- Apart from the above listed features, Dosto also offers you additional unique features as follows:
  - This feature allows to enable Message Disappearing function. This function automatically deletes a message after a set time by the sender. Set a time limit from as low as 5 seconds and high as 1 week and the feature will automatically delete the message once the receiver has read the message.
  - Communicate with Verified User – Dosto Gives you the freedom of communicating with a user verified by you.
