Kratos
Comprehensive Application Security

mPHATEK
Achieving Greater Heights

Your shield against cyber vulnerabilities

Secure Your Code, Secure Your Application

Code & App Security   **Fixing Vulnerabilities**

Kartos is Your First Line of Defense

"Verizon's Data Breach Investigations Report (May, 2024), revealed a 180% increase YoY in vulnerability exploits as an initial step in a breach."

In the fast-evolving digital world, applications are frequently targeted by cybercriminals. Kratos ensures that your applications are secure from development through deployment, preventing both internal and external threats.

Key Features

Perform **SAST, DAST, and SCA Scans** seamlessly from GitHub, or GitLab.

Analyze source code, URLs, and applications to identify vulnerabilities and security risks.

Detailed report generation for individual users & teams

Ensure **robust code security** and deployed application protection for your organization.

Enhance **your DevSecOps** practices with integrated and actionable security insights.

Business Benefits

1 Thorough Vulnerability Identification

2 Prioritization of High-Risk Vulnerabilities

3 Reduced manual efforts by more than 60%

cyber safety
